

Aloha members of the Kaua'i County planning commission:

I am writing to ask you **to please remove the resort land use designation on the Princeville plateau** from North Shore maps in the 2020 General Plan.

This designation for Princeville Phase II issued over 30 years ago will make overcrowding and negative impacts on Kaua'i beaches, trails and infrastructure worse. It will make it even harder for local families to continue to live on the North Shore. It could further pollute Anini stream and reef.

I feel there is no need for new resort areas on the North Shore of Kaua'i. Allowing further resort expansion will only make all of the problems we are facing, acknowledged in other areas of the General Plan, much worse.

We appreciate all of the efforts of planning department staff on this plan. Thank you for your time, attention and caring for Kaua'i.

Much aloha,
