 - Question on whether funding can be directed toward hau bush removal along the riverbanks? DOT funding can only go toward slope stabilization to maintain the road integrity.
 - Question on allowing large trees like albizia to get big instead of dealing with them earlier when they're small? We are behind the curve in general on these kinds of activities and need to put more funding toward this to save money in the long run.

Habitat for Humanity may build the first 6 homes.

- Question on how to apply and the qualification process? Taylor Reid said this is all on their website <https://www.pal-kauai.org>. The first step is a homebuyer education program, followed by getting on a County government-administrated homebuyer waitlist which is about 460 people long in all of Hawaii. Then once your name is reached they will send the list back to PAL for further qualification considerations.
- Larry Graff overviewed the Kekaha 13-unit project which is aligned with Women-In-Need, Section 8 and houselessness status.

Kilauea Community Agricultural Center Pavilion Usage – Yoshito L’Hote: Mr. L’Hote is representing the community interest to be able to do other activities under the pavilions

such as cultural activities (baby luau, graduation parties, weddings, funerals) along with rollerskating/rollerblading and other types of activities. Mr. L'Hote is soliciting additional community input on such use.

- Question on proposed costs to use the facilities? It is intended to be a minimal cost activity similar to Lydgate, with bathroom cleanup and other activities subsidized by the retail activities.
- 7 community members including Councilwoman Cowden (in her role and as a KNA constituent) spoke in favor of expanding the pavilions for these kinds of uses.

MOTION by Gary Pacheco, seconded by Mike Latif to write a letter to the County supporting expanded uses of the Pavilions within County guidelines. Further discussion.

- A community member would like to see a proposed written plan of usage (days of the week and hours), sound studies, etc. similar to what Anaina Hou was required to do.

- Discussion on sound decibel limitations and hours of operation to maintain good community relations.
- Question on events with alcohol and driving safely with the high number of pedestrians along this strip of road? KCAC would likely be required to operate similar to a County park so no alcohol at events.
- Question on whether there is a written use agreement and who would do enforcement? There is currently a liability waiver, they haven't constructed a use agreement yet but it will be within County and community guidelines. Police do enforcement.
- Aina Ho'okupu o Kilauea Board Chair Sandi Kato-Klutke said she would like to take the input and concerns from the community tonight back to help draft the use agreement and operational plans.
- A community member was concerned about perpetuating more potentially disruptive nighttime activities down the lighthouse road area and would like to see daytime events only.
